

WORK HISTORY

Full Stack Developer

Embitel Technologies

Oct 2021-Present

- Developed user interfaces for web applications using ReactJS, Next.js, and GraphQL, optimizing for diverse devices and screen sizes.
- Actively participated in project planning meetings with clients, business analysts, and team members to analyze business requirements. Translated business requirements into a working model using Agile methodology, and reduced project timelines by 20%, resulting in increased client satisfaction.
- Developed navigation web applications using ReactJS with seamless Google APIs integration, resulting in a user-friendly experience and a 15% increase in business for XOS Trucks in 2023.
- Developed responsive and visually appealing user interfaces using Next.js with GraphQL APIs for ITC E-Store.
- Led and managed the BFF Development team in building scalable GraphQL APIs with Nest.js, overseeing service development from concept to delivery in each sprint.
- Implemented comprehensive unit tests using the Jest testing framework to ensure the functionality and accuracy of React components. Implemented rigorous unit testing for NestJs GraphQL APIs to maintain high code quality, ensure maintainability, and enhance API robustness.
- Mentored and guided junior developers in their tasks, monitoring code check-ins to ensure adherence to code quality standards.

Frontend Engineer

Tata Consultancy Services

Jun 2019 — Oct 2021

- Worked collaboratively as a React UI developer with team members to develop user-friendly interfaces and meet project requirements.
- Successfully facilitated an 11% increase in CFS Avanteous customers, reaching 135,000 in 2020, following the release of the website.
- Expanded CFS Wrap customer base by 12% to 120,000 customers in 2021, driven by the website launch.
- Developed application forms based on client requirements, ensuring that they were user-friendly and intuitive.
- Created reusable components that were utilized throughout the application, reducing development time and ensuring consistency across the application.
- Optimized web pages for better performance and user experience, ensuring they were responsive, accessible, and met design standards.

SKILLS

- **Frontend** — HTML, CSS, JavaScript, ES6, React, NextJs, Redux, Typescript, SASS, Browser Web APIs, Responsive layouts, Wireframes, Mockups, Web Security, ElectronJs, PWA, Webpack
- **Backend** — NodeJs, NestJs, Microservices, Working Knowledge of Algorithms and Data Structures, REST API, GraphQL API
- **Miscellaneous** — Jest, Accessibility, SEO & Performance tuning, AWS, Docker

PROJECTS

- **ITC E-Store (2022)** — Developed responsive and optimized user interfaces using NextJs, ensuring seamless user experiences across various devices. Integrated GraphQL APIs in NextJs applications for efficient data fetching and manipulation, receiving positive feedback from clients on the improved frontend functionality and design. Additionally, built a scalable Backend For Frontend (BFF) service with NodeJs and NestJS, following a GraphQL code-first approach to ensure adaptability for customer needs.
- **XOS –Web Navigation Application (2021)** — Developed a navigation application using ReactJS and ElectronJS tailored explicitly for the XOS platform to run in the Yocto environment. Integrated the Google Maps API to enable precise place searches and turn-by-turn navigation. Implemented additional features such as favorites and travel history functionality. Leveraged local storage to store relevant data within the application.
- **CFS Wrap Web Application(2020)** — Responsible for enhancing the UI/UX of Commonwealth Bank of Australia's wrap customer's web application using ReactJS, Redux, CSS, and Flex properties. Streamlined application design resulting in improved functionality and an enhanced user experience.

- **CFS Avanteos Web Application (2019)** — Contributed to the enhancement of the UI/UX of Commonwealth Bank of Australia's Avanteos customer's web application using ReactJS, Redux, CSS, and Flex properties. Implemented changes to improve the application's overall design and usability.

EDUCATION

University Institute Of Technology, Burdwan

August 2015 — May 2019

Bachelor of Engineering in Electrical Engineering
Percentage — 70.5%

ACCOMPLISHMENTS & AWARDS

- **Star Performer of the Month-(TCS)*3** - Was awarded this for my exceptional performance and dedication to my work.
- **Best Project (Annual Awards-2021)** - Overall excellence in deliveries and innovation.
- **Performer of the month (Embitel Technologies)** - Was awarded this for leading the BFF team, for deeper engagement with product and UX, and for a thorough analysis of system behavior.

VOLUNTEERING

- **10X Academy (2022)** — As a technical interviewer, conducted mock interviews with candidates, primarily freshers, and junior developers, to help them prepare for their dream job. Provided detailed feedback to the candidates to boost their skills and improve their interview performance.
